定义 (Pythagorean theorem)

The Pythagorean theorem is a fundamental relation in Euclidean geometry among the three sides of a right triangle.

定理 (Pythagorean theorem)

$$a^2 + b^2 = c^2$$

3. Empirical experiments 实验

Introduction

Mathematical
model

Empirical
experiments

Blocks 区块

For example

$$3^2 + 4^2 = 5^2$$

Note

Note that the Pythagorean theorem can only be applied to right triangles.
